### **Long Island Sound Dedicated Organizations:**

**Save the Sound, Inc.:** Save the Sound is a bi-state, non-profit membership organization dedicated to the restoration, protection, and appreciation of Long Island Sound and its watershed through advocacy, education and research.

**Soundkeeper, Inc.:** Soundkeeper is dedicated to the protection and enhancement of the biological, physical, and chemical integrity of Long Island Sound and its watershed.

**SoundWaters:** The mission of SoundWaters is to educate children and adults about the wonders and beauty of Long Island Sound and its watershed. Through education, SoundWaters provides people with an understanding and awareness of the changes they can make in their lives and communities to restore protect and preserve Long Island Sound and the Environment.

**The Maritime Aquarium:** The mission of The Maritime Aquarium at Norwalk is to ignite curiosity and promote understanding among people of all ages – so they are more inspired to respect and protect the world's precious water sources for all living creatures, especially those around Long Island Sound and its watershed.

**Clean Sound, Inc.:** Clean Sound, Inc. is an all volunteer, not-for-profit, tax exempt corporation, established in 1990 to remove fixed and floatable pollutants from Long Island Sound and all contributing watershed areas, to work to restore degraded habitats, and to inform others about the pollution problems facing the Long Island Sound.

**Schooner:** Schooner is a private, non-profit marine education organization dedicated to the conservation of the environment, particularly Long Island Sound and the rivers of Connecticut, and appreciation of their culture, history and future.

**Long Island Sound Foundation, Inc.:** It is LISF's mission to facilitate the exchange of information among individuals and organizations and enhance their ability to address issues impacting Long Island Sound. To enhance public learning, awareness, understanding and involvement focused on Long Island Sound. To establish an environmental fund by fund-raising and fund dispersing to support scientific and public policy research, education and community programs.

**Long Island Sound Resource Center:** The Resource Center was formed under the joint sponsorship of the Connecticut Department of Natural Resources and the Marine Science & Technology Center of the University of Connecticut. The Center has several primary functions: Collecting, cataloging and archiving the "grey" literature concerning Long Island Sound; Geographic Information System (GIS) Services; Long Island Sound Habitat Mapping and Characterization; serving as an information resource for and about the Sound.

Long Island Sound Watershed Alliance: Founded in 1991, LISWA is a regional, informal network of more than 200 local groups concerned with Long Island Sound's coastal management issues, such as water quality, dredging and disposal, sustainable fisheries and land use. LISWA brings together diverse organizations to strengthen the voice of the Long Island Sound community by improving our combined capabilities for stewardship, education, advocacy and communication.

Connecticut Marine Trades Association: The Connecticut Marine Trades Association (CMTA) is a not-for-profit trade association representing the recreational boating and related marine industries in our state. Founded in 1954 by a dedicated group of volunteers, CMTA exists for the benefit of the boating industry in Connecticut.

Chambers of Commerce:

- Greenwich COC
- Fairfield COC
- Middlesex Co COC
- Quinnipiac COC
- SACIA, the Business Council of Southwestern Connecticut

All are organizations that have a strong interest in the LI Sounds as one of the State's most important economic assets.

Connecticut River Valley and Shoreline Visitors Council

Connecticut Maritime Coalition

Other Organizations Whose Efforts Protect Long Island Sound:

Coalition to Save Hempstead Harbor: The Coalition to Save Hempstead Harbor is a volunteer, nonprofit organization and was founded in 1986. The Coalition is dedicated to identifying and eliminating environmental threats to Hempstead Harbor and surrounding communities and to advancing the public interest in restoring and protecting our local environment to its full ecological and economic potential.

Friends of Oyster Bay: Through environmental education and community events, Friends of the Bay, a non-profit environmental organization based on the north shore of Long Island, fosters local awareness of the need to preserve water quality and marine life. Through land use planning, we ensure that any development within the watershed is compatible with the needs of a healthy ecosystem. And through partnerships with

residents, local business, government and civic organizations, we strive to protect the economic, aesthetic and recreational value of our still-pristine harbor.

Earthplace: Harbor Watch/River Watch is a water quality monitoring effort that is actively engaged in the scientific monitoring of local estuaries and watersheds in lower Fairfield County.

Connecticut River Watershed Council: CRWC's primary mission is to promote improvement of water quality and the restoration, conservation, wise development and use of the natural resources of the Connecticut River watershed.

Quinnipiac River Watershed Assn: QRWA's mission is to protect and restore the Quinnipiac watershed; to raise public appreciation and understanding of its natural resources through recreational, educational, and hands-on conservation programs; and to promote recreational, use of the river corridor.

Bronx River Alliance: The Bronx River Alliance serves as a coordinated voice for the river and works in harmonious partnership to protect, improve and restore the Bronx River corridor and greenway so that they can be healthy ecological, recreational, educational and economic resources for the communities through which the river flows.

River Alliance: Rivers Alliance of Connecticut was formed to protect and enhance Connecticut's rivers and streams by promoting Sound River and watershed policies, uniting and strengthening the state's many river and watershed groups, and educating the public about the importance of river conservation.

Branford Land Trust: The mission of the Branford Land Trust is to preserve open space in Branford and to promote our community's appreciation of Branford's diverse natural features.

The Nature Conservancy: The leading environmental open space preservation organization in the State, whose timely acquisitions and advocacy made it possible for Connecticut to have the Steward B. McKinney National Wildlife Refuge.

Connecticut Audubon: Owners and managers of Milford Point, the largest Nature preserve directly along the Connecticut shoreline.

Trust for Public Lands: Founded in 1972, the Trust for Public Land, a national nonprofit works to protect land for human enjoyment and well-being. TPL helps conserve land for recreation and spiritual nourishment and to improve the health and quality of life of American communities. TPL's legal and real estate specialists work with landowners, government agencies, and community groups to create urban parks, gardens, greenways, and riverways; build livable communities by setting aside open space in the path of growth; conserve land for watershed protection, scenic beauty, and close-to-home recreation; safeguard the character of communities by preserving historic landmarks and landscapes.

Project Oceanology: Project Oceanology is owned and operated by the Interdistrict Committee for Project Oceanology, a non-profit association of 25 educational institutions in Massachusetts, Rhode Island, Connecticut and New York. Members of this association include public school districts, private schools, state universities, public and private colleges, a maritime museum and an aquarium. The Project is governed by an assembly of delegates representing the member institutions.

CT Land Trust Service Bureau: Land Trusts throughout the LIS watershed help preserve open space. This open space protects LIS by having both buffer and filtration uses. The list of Connecticut land trusts is as follows:

- Aspetuck Land Trust (Westport)
- Avalonia Land Conservancy (Old Mystic)
- Avon Land Trust (Avon)
- Barkhamsted Land Trust (Pleasant Valley)

CT Sea Grant: It is the CTSG's mission to foster the wise use and conservation of our coastal and marine resources through research, outreach, and education.

NY Sea Grant: New York Sea Grant, part of NOAA's National Sea Grant College Program, is a statewide network of integrated research, education, and extension services that works to promote the wise use and protection of marine and Great Lakes resources. Today 30 Sea Grant Programs, located in every coastal state, collaborate to respond to coastal issues of regional and national importance. In New York, Sea Grant is currently celebrating its fourth decade of "*Bringing Science to the Shore.*"

CFE: CFE is a non-profit environmental organization whose mission is to use law, science, public outreach and education to improve air and water quality, control toxic contamination, minimize the adverse impacts of highways and traffic congestion, protect public water supplies and preserve the open space and wetlands so crucial to both the state's citizens and its wildlife.

Citizens Campaign for the Environment: CCE works to build widespread citizen understanding and advocacy for policies and actions designed to manage and protect interdependent land and water resources, wildlife and public health. CCE carries out this mission through public education, research, lobbying, organizing and public outreach.

Federated Conservationists of Westchester County: Federated Conservationists of Westchester County Inc. was founded in 1965 as a not-for-profit coalition of dozens of local environmental groups to form a strong, single voice for combating pollution and preserving Westchester's many precious natural resources.
